Parent Quotes about Miriam School

We live nearly an hour away from Miriam, but it is so worth the drive - it has made that big a difference in our child's life.

I can't say enough good things about Miriam and the change it has made in our family's lives.

Our daughter attended three other elementary schools before finding Miriam.

They truly understand what our kids experience each day and are skilled teachers of our "Unique Learners"

Parents Quotes about the Support Group

The Parent Support Group started at Miriam this year has been a true lifeline for me.

I had lost a lot of hope over the past year and had even sought counseling [who suggested] the importance of finding a community of others that also had kids with the similar challenges; so when the first email about interest in a group like this came through, I jumped on it.

I can't even begin to express how much this group has meant to me. Being able to share experiences and emotions with other parents is comforting and validating.

This Parent Support Group has become a valuable part of my support community and I'm so thankful Missy and Molly have brought this to Miriam.

I have searched for years for a support group to no avail. It is so nice to connect with other parents who can relate to the many different experiences we have as parents to special needs kids.
